

Protective Behaviours

Protective Behaviours (CR.000229)

Aim: To develop and strengthen individual, agency and community competency in the personal safety education program, Protective Behaviours.

Target group: All Department of Communities Staff, non-government agencies and Foster Carers.

Facilitator: Karen Walker – L&D Consultant

Learning Outcomes

- Learn the themes, concepts, strategies and practical application of the Protective Behaviours Program in context with your practice.
- Increase awareness about the benefits of the Protective Behaviours Program in the promotion of prevention of child abuse and early intervention in society.
- Identify international and national child safe legislation and guidelines.
- Increase knowledge and awareness about the complex nature of child abuse.
- Recognise the importance of management, responding and reporting processes with disclosure of abuse.
- Explore resources, toolkits and links to reinforce safety strategies and understanding.
- Identify worker vicarious trauma to respond, build and maintain resilience.
- Develop an individual Protective Behaviours Action Plan to build on current practice strengths.
