

DEVELOPMENT WORKSHOP

Child Development– Language

Understanding how speech and language develop at different ages and stages is essential.

Communication difficulties can be problematic and can lead to frustration, misunderstanding & behaviour problems in children. Delayed language can also indicate difficulties and concerns in other areas, so intervening early is key.

This workshop will provide information and ideas on how to enhance and support your child's speech & language development and learning. We will also share what to do and where to seek support when your child's speech and language development appears delayed.

Presenter: Carolyn Aylmore
Venue: Perth & Video Conference
